

### HUMBOLDT RIVER FALLING RAPIDLY

The outlook for higher water in the Humboldt river this season from Palsade west is most unpromising, according to J. Sheehan. Mr. Sheehan says he made observation of the river at Palsade and that it has fallen from a foot to a foot and a half in the past ten days. Pine creek which was pouring a large volume of water into the Humboldt at Palsade ten days ago, has fallen so that it now carries hardly any water into the river. The same condition exists in the vicinity of Battle Mountain and it is high improbable that the Humboldt will show any further rise this season.

### ELY REPORTS HAVING HIGHEST PRICED SPUDS

The potato famine in Ely has been relieved, in a way, there being only new potatoes in market and being held at 17 1/2 cents a pound. A carload of potatoes and vegetables arrived Sunday night, but it is claimed that no old potatoes were obtainable. Merchants report that the buying is principally by people who are completely out of potatoes and finding no substitute were forced to take them and those a few at a time. Some persons refuse to buy any, and other vegetables as the result are finding excellent sale, though their prices are high, also.

### NATIONAL BANK OPENS AT EUREKA

J. Sheehan has returned to Winnemucca from Eureka, where he went to attend the organization meeting of the board of directors of the new Farmers' and Merchants' National Bank. Officers were elected as follows: J. Sheehan, president; J. B. Biale, vice-president; Walter Handley, vice-president; C. J. Travers, cashier. Mr. Travers, the cashier of the new bank, has held a position with the Winnemucca State Bank & Trust company for the past four years. The bank building is being remodeled and supplies and fixtures shipped in and the bank will be opened for business on July 1.

### AND FINAL ACCOUNT AND PETITION FOR SETTLEMENT OF ACCOUNT AND DISTRIBUTION.

In the District Court of the Fifth Judicial District of the State of Nevada, in and for the County of Nye. In the Matter of the Estate of A. T. JOHNSON, Deceased. Notice is hereby given that W. A. Johnson, administrator of the estate of A. T. Johnson, deceased, has rendered and presented for settlement and filed in the above entitled court his first and final account and petition for settlement of account and distribution of said estate; and that on Saturday, the third day of July, 1926, at 10 o'clock A. M. of that day, in the court room of the above entitled court at the court house in the town of Tonopah, Nye county, State of Nevada, has been fixed by said court, for the settlement of the first and final account and petition for distribution of said estate, at which time and place any person interested in said estate may appear and file his exceptions to said account and petition, for distribution of said estate, if any he has, with same should not be granted. Dated June 11, 1926. L. E. GLASS, Clerk of Court. By L. Hatteron, Deputy. Frank T. Dunn, Attorney for Administrator. June 12, 19, 26

Scott, Dave Teaman, Elmer D. Wiley, Thomas Wilson, J. C. Williamson, W. H. Wheeler. J. J. McQUILLAN, P. M.

## Thompson Group Sold Next To Broken Hills

(Continued from page One.) According to engineering authority, may be expected to reveal values corresponding with the high grade returns obtained in the workings tributary to the main shaft. It is calculated by mining experts that should only the main 5 foot vein, which assays \$29 per ton for an entire width on the 150 foot level, maintain its continuity and value to a depth of 500 feet a million dollars worth of ore will be indicated on only one-half of one of the 15 claims of the Broken Hills Silver Corporation group. It is further computed that if the values in the vein hold out for the entire length of 2100 feet within the boundaries of the company's holdings down to the 500 foot and 1000 foot points, no less than \$7,000,000 and \$14,000,000 worth of ore, respectively, will be indicated. Calculations have been made on the brecciated ore zone. It is figured that if only a part of this mass, 240 feet wide and 2100 feet long, be found of commercial value, the mine can be reckoned as possessing high in the millions of dollars worth of ore. It has just become known that following a month ago C. H. McIntosh, a Reno lawyer, and George Graham, who purchased the Thompson group of claims adjoining the Broken Hills mine on the southwest. Several of these have recently been made for two groups, which is now held for \$500,000 cash. Geologists declare that the Thompson group contains one of the big faulted segments of the Broken Hills vein, the mineralized area being figured as having a width of 1200 feet. Two claims adjoining the Broken Hills mine group on the north have been acquired by San Francisco capitalists and mining men who were identified with Goldfield in the early days. Harry Stimler, the discoverer of Goldfield who is recognized as possessing a "nose for ore" has obtained an option of purchase on still another group to the north of the Broken Hills. With a large force of miners, work has been started by the Silver Trailer Mines Company on the Baxter group, which was recently acquired by George Williams, president of the Churchill County Bank of Fallon, and associates at a price of \$100,000, and a large block of stock from V. S. Baxter. Notable among the visitors who inspected the Broken Hills mine on Thursday last included Ross Thompson, discoverer of the famous gold-copper camp of Rössland, British Columbia, after whom that camp was named. He stated that the Broken Hills was the best new mining district he had visited in the last twenty years. Other visitors who came in automobiles included George Williams and A. P. Branch, officers and directors of the Churchill County Bank; and C. E. Bingham, director of the Bank of Fallon, who are heavy stockholders in the Silver Trailer Mines Company; Harry Stimler, discoverer of Goldfield; C. D. Wilkins, formerly engineer for George Williams; S. H. Brady, who would name for his successful development of the Tonopah Belmont mine at Tonopah; J. E. Davis, superintendent of the Phelps Extension mine; L. J. Brinde district of Nevada; Briz Putnam, a well known Manhattan camp operator; Wesley Frazee, formerly superintendent of the Nevada Wonder mine, who has accepted a like position with the Broken Hills Silver Corporation; James H. Nevins, formerly superintendent of the Nevada Wonder mine. NOTICE OF ANNUAL MEETING. LAFAYETTE CENTRAL MINES COMPANY. The annual meeting of the stockholders of the Lafayette Central Mines Company will be held at the temporary office of said corporation, 206 Central street, Tonopah, Nevada, on the 5th day of July, 1926, at 7:30 p. m. for the purpose of electing directors and for the transaction of such other business as may be brought before said meeting. C. L. BOOTH, Secretary.

### INFORMATION ABOUT FLAG

There is no Federal law now in force pertaining to the manner of displaying, hanging or saluting the United States flag on prescribing any ceremonies that should be observed in connection therewith. It is fact there are but two Federal laws on the statute books that have any bearing upon this subject—one the Act of Congress, approved February 20, 1905 (33 Stat. L., p. 725), providing that a trademark cannot be registered which consists of or comprises, inter alia, "The Flag, Coat of Arms or other insignia of the United States or any simulation thereof"; and the other the Act of Congress, approved February 8, 1917 (Public No. 303, 64th Cong.) providing certain penalties for the desecration, mutilation or improper use of the flag within the District of Columbia. Nevada forbids the use of the flag for advertising purposes and punishes public mutilation, trampling or casting contempt upon the flag as a misdemeanor. It is the practice of the army, each day of the year, to hoist the flag, briskly at sunrise, irrespective of the condition of the weather, and to lower it slowly and ceremoniously at sunset, indicating the commencement and cessation of the activities of the day; and to display it at half-staff on Memorial Day, May 30, from sunrise until noon, and at full-staff from noon until sunset, and also on other days especially designated for that purpose by the proper authority, the flag always being hoisted to the top of the staff before being lowered to the half-staff position. Considerable discussion has arisen throughout the country concerning the proper manner of hanging and displaying the flag for decorative purposes. As already stated, there is no Federal law governing the subject, and individual opinion differs as to the procedure that should or should not be followed. Custom, however, has made rules which appear on a circular issued by Maurice J. Sullivan, adjutant general of Nevada which may be had on application.
